ABOUT ME

I'm a 25-year old junior designer and developer, passionate about software usability and architecture. I have 4+ years of experience with object-oriented programming, and 1+ year of experience with event/state-driven software.

EDUCATION

2020-2022
IT-University of Copenhagen
MSc Design and Information Technology

2017-2020
Copenhagen University
BSc Health and Information Science

SKILLS

- Programmatic Design
- Object-Oriented Programming
- Software Architecture

EXPERIENCE

Financial Intelligence Unit IT Administrator | 2021-2022

In this role I was responsible for our front-end development and advancing internal utilities, as well as maintaining our communication channels with users and addressing their concerns.

The development included:

- Advancing internal utilities for data encoding and database interactions.
- Website configuration, appearance, content and maintenance.
- Planning, prototyping and evaluating potential future implementations.

Introduction to Programming, ITU Assistant Lecturer | 2022
